

## Electricity Industry (Exemption No. 165 (Mighty River Power Limited)) Exemption Notice 2013

Pursuant to section 11 of the Electricity Industry Act 2010 (“Act”), the Electricity Authority gives the following notice.

### Notice

**1. Title and commencement**—(1) This notice is the Electricity Industry (Exemption No. 165 (Mighty River Power Limited)) Exemption Notice 2013.

(2) This notice comes into force on the day after the date it is notified in the *New Zealand Gazette*.

**2. Exemption**—Mighty River Power Limited (MRPL) is exempted from compliance with clause 10.3(b) of the Electricity Industry Participation Code 2010 (“Code”) in respect of the following installation control points (“ICPs”):

**3. Term**—This exemption expires at the earlier of:

- the date on which the Electricity Industry Participation (Metering Arrangements) Code Amendment 2011 comes into force; and
- the date, as recorded in the registry, on which MRPL no longer has the responsibility as the trader for the ICPs listed above.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- Granting the exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- MRPL would incur significant expenditure in fitting meters to each ICP where the loads are predominantly street lights, bus shelters and speed cameras with low annual consumption volumes (but over the 3,000 kWh level for unmetered load);
- the loads at these ICPs are static, have little annual variation, and load changes can be accurately tracked;

- MRPL will continue to treat the loads as standard unmetered loads and record the information in the registry;
- the ICPs are likely to comply with the new threshold (6,000 kWh per annum) for predictable unmetered load when the new Part 10 of the Code comes into force; and
- the exemption will have little or no impact on other participants and service providers, and will not affect any other Code provisions.

Dated at Wellington this 10th day of March 2013.

For and on behalf of the Electricity Authority:

DR THOMAS BRENT LAYTON, Chairperson, Electricity Authority.
