2010 System Operator Procurement Plan

The Minister of Energy and Resources has approved the 2010/2011 System Operator procurement plan as recommended by the Commission, following industry consultation. The new procurement plan comes into effect on 1 December 2010. A Gazette notice for making the necessary rule change, together with the wording of the new procurement plan (to replace the current procurement plan in Schedule C5 of part C of the Rules), will be published later this week.

Republication of final prices

Following consultation, the Commission has recommended an amendment to rule 3.27 of Section V of Part G to the Minister of Energy and Resources.

The proposed amendment clarifies the Commission's authority to order republication of final prices to remedy UTS.

Details of the amendment are published at:
