

## **Electricity Industry (Exemption No. 206 (New Zealand Steel Limited)) Exemption Notice 2014**

Pursuant to section 11 of the Electricity Industry Act 2010 (“Act”), the Electricity Authority gives the following notice.

### **Notice**

**1. Title and commencement**—(1) This notice is the Electricity Industry (Exemption No. 206 (New Zealand Steel Limited)) Exemption Notice 2014.

(2) This notice comes into force on **1 September 2014**.

**2. Exemption**—New Zealand Steel Limited (“NZ Steel”) is exempted from compliance with the obligation in clause 10.24(c) of the Electricity Industry Participation Code 2010 (“Code”), not to use subtraction to determine submission information, in respect of the metering installation at installation control point (“ICP”) 0008201110WM5F5.

**3. Term**—This exemption expires at the earlier of:

- (a) the close of **31 December 2019**; and
- (b) the completion date of a new supply point to Taharoa village upstream of NZ Steel’s Taharoa iron-sands mine.

**4. Reasons for granting the exemption**—The reasons for granting this exemption are:

- (a) granting the requested exemption meets the requirements in section 11(2) of the Act for granting exemptions;
- (b) deriving the submission information from the metering installations by subtraction is as accurate as it would be if it was derived using directly metered data;
- (c) the exemption from clause 10.24(c) of the Code will allow NZ Steel to use subtraction to determine submission information, even though the ICP is not also a network supply point; and
- (d) the requested exemption will have no impact on any other participant or service provider, and will not affect any other Code provision.

Dated at Wellington this 25th day of August 2014.

For and on behalf of the Electricity Authority:

HON ROGER SOWRY, ONZM, Member, Electricity Authority.
