

TRADER AND DISTRIBUTOR FORUM MEP RESPONSIBILITY FOR ATH ACTIVITIES

Jonathon Staite Advisor Market Operations

9 February 2017

COMPETITION • RELIABILITY • EFFICIENCY

Overview

Clause 10.38(b) requires MEP to certify using an ATH

10.38 Certification of metering installations

A **metering equipment provider** must—

- (a) obtain and maintain **certification** in accordance with this Part—
 - (i) for each **metering installation** for which it is responsible; and
 - (ii) for each **metering component** in a **metering installation** for which it is responsible; and
- (b) ensure that any tests required for **certification** under paragraph (a) are conducted in accordance with this Code including the obligations under Schedule 10.7 or 10.8 (whichever is applicable) by an **ATH** contracted by the **metering equipment provider**.

MEP is responsible for certification of metering installations

- MEP must engage with ATH for tests
- ATH needs to comply with Code (for tests it performs)
- MEP should check that all work is done
