Qualification status	Complete
Data preservation	The database will be refreshed
Data setup	No data setup
Data conversion	No data conversion
Release instructions	The release will be completed by JadeCare24 on a managed server
User instructions	None

ELECTRICITY REGISTRY NEW ZEALAND

SYSTEM SOFTWARE RELEASE

Issues Addressed

Ref.	Raised	Description	Status
ER-749	30/01/2018	When an EIEP file contains 'SendToEAOnly' in the Unique Id section, the audit field 'Delivered as' must show EMCO in the recipient section of the file name. Currently it is showing the intended recipient. As per FS, the Recipient will be ignored and the file transferred instead to the Authority's EIEP directory.	Complete
ER-747	29/01/2018	Data cleanup - remove invalid 2013 switch breach timer (GRID issue 30)	Complete

Documentation Updates

Enhancements

Ref.	Raised	Description	Status
ER-753	07/02/2018	Setup new EIEP5A email group as part of the standard UpgradeAgent static data setup. Participants who send EIEP5A format files through the EIEP hub may select to have confirmation and notification email sent to EIEP5A email group, instead of the default EIEP email group, if they have setup addresses in the EIEP5A group.	Complete
ER-751	07/02/2018	Request to reword the EIEP audit contextual information, replacing "Sent to EA SFTP server" with "Sent to Authority SFTP server".	Complete
ER-750	05/02/2018	UpgradeAgent class; refactor to allow update to attributes of an existing code instance.	Complete
ER-748	29/01/2018	Setup new EIEP type (EIEP1) to EIEP file types	Complete
ER-744	11/01/2018	For Trader and Distributor browser updates add context information to successful updates indicating if a) an inset has replaced an existing event, and/or b) the update is outside the maintenance breach time frame (GRID item 28)	Complete
