**OIA request - number of smart meters in New Zealand**

I refer to your email of 6 March 2018 to Fire Emergency New Zealand, in which (among other things) you requested the number of smart electricity meters currently installed in New Zealand.

Fire Emergency transferred this part of your request to the Authority on 8 March 2018.

As of 28 February 2018, there were 1,687,757 smart meters installed in New Zealand.

Yours sincerely

Carl Hansen  
Chief Executive
