

THE IPAG'S PURPOSE STATEMENT AND SUCCESS INDICATORS

As agreed following discussions at Meeting 2 (Thursday, 8 February 2018)

Purpose statement

Promote frameworks that remove barriers to innovation for new and existing players to encourage greater participation to improve competition, reliability and efficiency for the long-term benefit of consumers.

Success indicators

- Producing quality analysis within required timeframes that is consistent, logical and identifies the key issues
- Establishing a visible process to identify problems and propose durable solutions, leading to consensus recommendations and eventual adoption of the proposed solutions
- Encouraging feedback from the Authority Board and external stakeholders, including a willingness to participate in the IPAG's processes
- Members seeking re-appointment to, and new people wanting to join, the IPAG when membership terms are up for renewal.
