

Security and Reliability Council agenda planning as at 24 October 2017

The below table sets out the papers that are expected to be tabled at future SRC meetings.

Paper type	Meeting	Paper	Notes
Special papers	Nov 2017	The SRC's role with respect to Electricity Authority and Commerce Commission activities	Specifically includes monitoring activities
		Update on Transpower's major capital project for voltage stability in the upper-North island	
	Dec 2017	South Island power system events of 2 March 2017	Availability of Transpower reporting is a key input to this paper
	TBD	Briefing from the Smart Technologies Working Group	
Regular annual papers	March/ April	Annual Assessment of Security of Supply	The system operator publishes this annually by 1 March
		New Zealand Generation Balance reporting	The latest reporting available at that time
	June/July	Strategic outlook and SRC alignment	A semi-regular paper that reviews the strategic environment and the SRC's activities in light of the environment
	October/ November	The system operator's self-review of its performance	The system operator publishes this annually by 31 August
		The Authority's draft of its annual review of system operator performance	The SRC's feedback is an input to the final version that gets approved by the Authority Board
