Subject: RE: MDAG - Saves and Winbacks

Hi Avi

This is very disappointing given the that stakeholders from a wider range of interest groups have submitted and such information is publicly available, it seems odd that MDAG would not consider this valid or useful material in their deliberation.

Seeing as no further engagement and EPR submissions are being examined I note that cross submissions closed on 14th August approaching 4 months ago.

Can you advise what progress has been made on this matter and when the recommendations paper will be published?

Kind regards Johnathan

Hi Johnathan,

The MDAG considered both your requests regarding saves and win-backs at its meeting yesterday, and believes it has received sufficient information on the topic having heard from various stakeholders in person, and received submissions and cross-submissions on its issues paper. Therefore, at this time the MDAG has no plans to either further interact with stakeholders before it submits its recommendations paper or to consider submissions to the EPR.

Cheers,

 **Avi Singh**

Hi Avi

Sorry to follow up. With the EPR making reference the issue of Saves and Winbacks matter I would like to formally request confirmation as to whether MDAG will be consider the submissions on that matter via the EPR as well?

Thanks Johnathan
