

12 April 2019

Brent Layton
Chairman
Electricity Authority

Dear Brent

Final advice on the Equal Access project

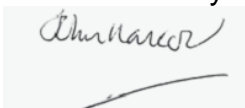

Thank you for the opportunity to provide advice on creating equal access to electricity networks.

We have updated our *Advice on creating equal access to electricity networks report*, taking into account the Board's suggestions outlined in your letter of 21 February 2019.

Attached is the IPAG's final report.

We look forward to hearing the Authority's detailed plan for implementing equal and open networks. The IPAG would be pleased to assist with further advice on implementation options, if the Authority would find that useful.

Yours sincerely
