

## Compliance plan for CBRE Networks Ltd (CBRE)

Title: Audit trails		
Non-compliance	Description	
<p>Audit Ref: 2.4</p> <p>With: Clause 21 Schedule 15.2</p> <p>From: 01-Jun-18</p> <p>To: 29-May-19</p>	<p>EDMI's IE2 and DQM audit trails do not record the operator identifier for the person who completed the activity; operator identifiers correspond to a user group not an individual.</p> <p>Potential impact: Low</p> <p>Actual impact: Low</p> <p>Audit history: None</p> <p>Controls: Strong</p> <p>Breach risk rating: 1</p>	
Audit risk rating	Rationale for audit risk rating	
<b>Low</b>	<p>The controls are rated as strong and the impact as low.</p> <p>Audit trails are available and contain the required information, but the person who processed the change is not identifiable within the audit trail because there is only one operator identifier.</p> <p>A small number of users have access. For the sample of audit trails reviewed, the person responsible for processing the change was identified through supporting information in Fresh Desk.</p>	
Actions taken to resolve the issue	Completion date	Remedial action status
This looks to be a change in code requirements that EDMI has not made changes for we would assume that this has now been dealt with and is covered in their audit report.		Cleared
Preventative actions taken to ensure no further issues will occur	Completion date	
As above
