Dear Peter

Variation to Registry Manager Market Operator Service Provider Agreement

I refer to the Registry Manager Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and Jade Software Corporation (NZ) Limited (Jade), dated 25 January 2017, relating to services provided by Jade as the registry manager.

The Authority would like to vary Table 1: service levels reported monthly in clause 5.2 of Schedule 2 of the non-functional specification of the MOSPA, as follows:

- remove Jade's obligation to report monthly on user requested registry reports.

A copy of the non-functional specification with the proposed variation incorporated is attached to this letter. If you agree to it, the varied non-functional specification will become version 1.1 of Schedule 2 of the MOSPA.

Please confirm your acceptance of the variation proposed in this letter by signing and returning a copy of this letter to me. The proposed variation to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

Rory Blundell
General Manager Market Performance

I, **Peter Smith**, agree for and on behalf of Jade Software Corporation (NZ) Limited to the variation to the MOSPA set out in this letter.

Date: 11/6/19
