Dear Shane

Amendment to Wholesale Information and Trading System Market Operator Service Provider Agreement

I refer to the Wholesale Information and Trading System (WITS) Market Operator Service Provider Agreement (MOSPA) between the Electricity Authority (Authority) and NZX Limited, dated 30 October 2015, relating to services provided by NZX Limited as the WITS manager.

The Authority would like to vary the non-functional specification in Schedule 2 of the MOSPA to reflect the following amendments:

- clause 25.1(c): the WITS manager now is only required to report on a summary of WITS service activities and market information if requested by the Authority
- clause 25.1(g): the Authority no longer requires the WITS manager to report monthly on a measure of system capacity and utilisation of that capacity.

A copy of the non-functional specification with these proposed variations incorporated is attached to this letter. If you agree to it, the varied non-functional specification will become version 1.1 in Schedule 2 of the MOSPA.

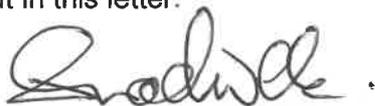

Please confirm your acceptance of the variations proposed in this letter by signing and returning a copy of this letter to me. These proposed variations to the MOSPA will take effect on the date you sign this letter.

Yours sincerely

Grant Benvenuti
Acting General Manager Market Performance

I, Shane Dinnan, agree for and on behalf of NZX Limited to the amendment to the MOSPA set out in this letter.

Date: 25/5/2020

Delegated to Tim Chadwick.
